

ISO/IEC 22301 Foundation

Description

Why choose the ISO 22301 Foundation training?

Business continuity management is essential for all organizations seeking to minimize disruptions caused by incidents. The ISO 22301 Foundation training allows you to understand and apply best practices according to the ISO 22301:2019 standard. This course is an opportunity to learn how to implement a solid business continuity management system (BCMS) to effectively handle crises. You will learn the key concepts of the BCMS, how to apply procedures, and how to continuously improve your organization's response to unforeseen events.

Ensure the continuity of your activities with ISO 22301

Whether you are a risk manager or a consultant, this training gives you the solid foundation to protect and secure your organization's activities. Upon completion, you will take the ISO 22301 Foundation certification exam, proving your understanding of the fundamentals of business continuity management. Strengthen your skills now and prepare your organization to overcome crises with a BCMS compliant with international standards.

Niveau

Fondamental
