ISO/IEC 22301 Transition

Description

Discover the benefits of ISO 22301 Transition training

The ISO 22301 standard has recently evolved to meet the current needs of businesses. It takes into account the challenges related to business continuity in an ever-changing environment. With this ISO 22301 Transition training, you will gain the necessary skills to understand and apply the changes introduced by the 2019 version.

Why choose the ISO 22301 Transition training?

By participating in this course, you will be guided through the new clauses and concepts of the standard. You will learn how to support an organization in implementing the necessary changes to transition to ISO 22301:2019. Our course is designed for managers, consultants, and auditors who want to master these new requirements and successfully manage the transition. Additionally, you will be prepared for the certification exam, which will validate your acquired knowledge throughout the course.
